## 1 SELECTIVE PALLET RACKING

Selective pallet racking is constructed from two basic parts – upright frames and load beams. All beams fit upright to create a flush top level and can be adjusted in height every 3" of the upright without interfering with the beams in the next bay. This type of pallet racking is perfect for storing full pallets or for hand-stocking heavy products on wire decking.

### Upright Frames:

To determine frame height required, add the height of the load including pallet, plus beam height, plus 6" of clearance. Multiply sum by number of levels.

### Adjustable Load Beams:

Choose beam lengths and capacities to suit the width and weight of your pallets. To determine lengths, allow 4" clearance between pallets and 3" between pallets and uprights.

Stock Number	Depth	Height	Capacity Lbs.
894/42-096NAS	42"	8'	22,570

## 2 CANTILEVER RACKING

• Ideal for storage of lumber, steel channels, pipes, tubes, plywood and steel plates and items of long length or irregular shape

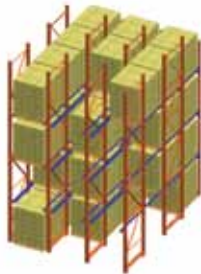

Cantilever racking is constructed from high tensile structural steel components for added strength and better protection from damage, abuse, or impact in even the harshest warehouse environment.

This type of racking system is specifically designed to handle a wide variety of products, especially long and irregular shaped products, by providing unrestricted front access for lift truck forks. Cantilever racking systems provide flat or tapered arms for easy loading, with columns acting as backstops for products. All cantilever racking systems feature base legs for stability and to keep products off the floor, as well as bolted arms that are designed to bolt on one or both sides of the column, providing easy conversion from single to double-sided units. The bolted arms for this product are adjustable on 4" centres and are available in a variety of styles and capacities.

### 3 WIRE MESH DECKS

**Versatility** – store varying sized pallets, boxes, drums.

**Installation is Easy** – Wire Mesh Decks simply drop over your standard pallet rack beams.

**Lighting** – The open wire design allows for light to pass through to lower levels.

**Clean** – Wire Mesh Decks are “self cleaning” as they do not allow for the collection of dust or debris.

Wire mesh decks are made from an all welded construction that provides added strength and versatility to any pallet racking system. It is designed to help provide additional safety and meet local fire code requirements.

### 4 PALLET RACK FRAME PROTECTOR

- Height = 18"
- Inside Width = 4-5/8"
- Inside Depth = 2-7/8"
- Overall Width = 8"
- Overall Depth = 4-1/2"

SUPPLIER:

Stock Number – 894/SPP-18

Pallet racking frame protectors are constructed from 3/16" thick steel in order to provide a high level of protection you can depend on. All pallet racking frame protectors come fully equipped with powder-coat finish to help prevent rusting and the wear and tear of everyday damage.

Pallet rack frame protectors are specifically designed to help prevent pallet rack uprights from being damaged by forklifts and material handling equipment by deflecting even the strongest of impacts. All pallet rack frame protectors come equipped with a baseplate that has three anchor holes to allow for the frame protector to be installed into any existing pallet rack system.

### 5 BAR STOCK RACKING

- Powder-coat finish
- Up to 600 lbs capacity per arm
- Arm length of 9", 12", 18" and 24"
- All arms attached with a double bracket connection
- Available in single & double-sided configuration

SUPPLIER:

Bar stock racking systems come fully equipped with a powder-coat finish that is specifically designed to stand up to the wear and tear of everyday use.

All bar stock racking systems are designed using standard rack components for light and medium duty applications, making them the perfect storage solution for hand loaded bars, pipes, or long narrow trims.

## 1 EZRECT SHELVING TYPE 1

EZRECT shelving type 1 is a completely boltless system that can easily be erected within minutes, making it an ideal storage solution for a wide range of industrial and commercial applications. All EZRECT shelving systems are specifically designed to stand up to even the toughest warehouse environments.

Made up of four basic parts—posts, post connectors, shelf supports, and shelves—EZRECT shelving offers accessibility from both the front and the back of the unit. This shelving system features adjustable shelves and vertical adjustments at 2" intervals, making it easy to maximize the unit's storage space. EZRECT shelving systems are sold either by the piece or as a full unit with five shelf levels, offering a weight capacity up to 2,000 lbs per shelf (shelves sold separately).

**How To Order** – Start each new row with a free-standing "Starter Unit". By using "Add-On" units of the same depth, you can extend the row as long as your needs require.

- Erects in Minutes
- Capacities to 1500 lbs
- Adjustable Shelves
- Accessible Front & Back
- Comes with 5 Shelf Levels
- Shelves Sold Separately
- Completely boltless system
- Four Basic Parts – posts, post connectors, shelf supports and shelves
- Vertical adjustment at 2" intervals for maximum utilization
- Standard colour – Grey Baked Enamel

## 2 EZRECT MOBILE SHELVING SYSTEMS

- Traditional Shelving requires several aisles
- Mobile Shelving reduces the number of aisles required
- Fewer aisles = More shelving
- Store up to 50% more in less floor space with an EZRECT Mobile Storage System

**SUPPLIER:**

**The Mobile Shelving Advantage**

- Reduce your floor space requirement
- Store product more efficiently and increase storage capacity
- Improve access time and productivity
- Lower your operating costs
- EZR Mobile Storage Systems provide a quick Return On Investment
- The Retail Mobile Shelving Advantage

**Increase the space utilization of your Stockroom**

- Reduce the size of your Stockroom
- Allocate Additional Square footage to retail selling space
- Maximize Sales opportunities through increased stock levels at the point of sales

EZRECT mobile shelving systems are specifically designed to store up to 50% more in less floor space than traditional shelving systems by reducing the number of aisles required. This type of shelving system is ideal for both commercial and industrial applications, as it can help improve access time and productivity, while also lowering operating costs.

This type of shelving system is perfect for increasing storage space utilization, while also maximizing sales opportunities through increased stock levels at the point of sales. EZRECT mobile shelving systems can be customized to accommodate almost any type of shelving brand on the market, including both EZRECT shelving type 1 and EZRECT shelving Trimline products and are available in a wide range of sizes with wood, metal, or wire shelf options.

also boasts a weight capacity up to 950 lbs per shelf (shelves sold separately). All EZRECT shelving Trimline systems are available in a wide range of different sizes and come in the standard Soft Off-White Baked Enamel colour.

**How To Order** – Start each new row with a free-standing "Starter Unit". By using "Add-On" units of the same depth, you can extend the row as long as your needs require.

**5 SPIDER OPEN SHELVING**

Spider open shelving systems are a great economical choice when designing the storage layout for any warehouse setting, making them perfect for both industrial and commercial applications. This type of shelving system is made from a sturdy construction that offer strength and durability you can rely on.

All spider open shelving systems work to eliminate front and back swaying through the use of side and back braces. This support system helps ensure that the shelving is able to remain strong and stable under even the heaviest loads. Spider open shelving systems are extremely easy to assemble for any warehouse space and offer easy access to all products being stored. This type of shelving unit comes with six storage shelf levels and is available in a wide range of different sizes, making it easy to find the right fit for your specific warehouse needs. All spider open shelving systems come in a light grey colour.

**How To Order** – Start each new row with a free-standing "Starter Unit". By using "Add-On" units of the same depth, you can extend the row as long as your needs require.

## 8 CHROME WIRE SHELVING

Chrome wire shelving is made from a simple design that is easy to erect without the need for any special tools.

This type of shelving system boasts an open wire design that can help minimize dust and improve air circulation throughout the warehouse. All chrome wire shelving systems can also be easily adjusted—featuring shelves that can be adjusted at precise 1" intervals and feet that can be adjusted to compensate for surface irregularities—and comes complete with four shelf levels. Chrome wire shelving offers a weight capacity of 800 lbs per shelf, providing strength and durability you can rely on.

**How To Order** – Start each new row with a free-standing "Starter Unit". By using "Add-On" units of the same depth, you can extend the row as long as your needs require.

- Open wire design minimizes dust
- Improves air circulation
- Greater visibility of stored items
- No special tools required
- Shelves can be adjusted at precise 1" intervals
- Adjustable feet compensate for surface irregularities
- Complete Shelving Unit c/w 4 Shelf Levels
- Shelf Capacity – 800 lbs

## 9 SLOTTED ANGLE SHELVING

- Pre-Engineered For Fast, Economical, Do-It-Yourself Construction
- Requires No Special Tools Or Skills
- Design and Build Anything to Your Specifications
- Reusable, Needs No Painting, Drilling or Welding
- 14 Gauge Angle
- In Stock – Grey

Slotted angle shelving is made from a strong steel construction that will not rust, splinter, warp, or sliver.

All slotted angle shelving products are pre-engineered for fast, economical construction that can be performed by anyone without any special tools or skills. This type of shelving system is 100% reusable, as it does not require any painting, drilling, or welding. Slotted angle shelving is compatible with other leading makes and models and it can easily be designed and built to fit any specifications.

If you are interested in slotted angle shelving, make a rough sketch showing the dimensions of your space in multiples of 2". Since all angles are pre-measured and marked every 2", one of our team members will be able to help you cut the slotted angle shelving to the desired lengths. The slotted angle shelving can then be bolted together, using gussets and foot plates for additional stability. Slotted angle shelving can be purchased either per foot or in 12" sections and is available with a selection of different accessories.

Stock Number	Description
900/40A	1 1/2" x 1 1/2" Angle/Ft – Cut To Size
900/40A-12	1 1/2" x 1 1/2" Angle – 12' Length
900/40A-NB	Nuts & Bolts 1 1/2" Angle

900/60A	1 1/2" x 2 1/2" Angle/Ft – Cut To Size
900/60A-12	1 1/2" x 2 1/2" Angle – 12' Length
900/60A-NB	Nuts & Bolts 2 1/2" Angle
900/CLIPS	Shelf Clips 1 1/2" or 2 1/2" Angle

## 10 WIDESPAN 4000 SHELVING SYSTEMS

Widespan 4000 shelving systems are the ideal universal shelving system for bulk and lightweight items, as well as for high-rise mezzanine or catwalk applications. This type of racking product ranges in sizes from 12" x 36" to 48" x 96" and are available with flooring that can be open steel plank, plywood, or bar grating. The mezzanine floor on Widespan 4000 shelving systems can be used for storage, light assembly work, or as an office, depending on local building codes. This type of racking also allows for almost all of the space beneath the system to be available for use.

**Frames:** Manufactured from 14 gauge steel and welded into an extremely strong structure.

**Front Mount Beams:** Available in 2" and heavy-duty 3". Manufactured from a one-piece 14 gauge rollformed section.

**Side Mounted Beams:** Using side mounted beams as shelf supports provide a cost effective shelving system. The V-type design supports particle board or steel shelving in front and back for added weight capacity. Front face covers board for neat appearance and provides maximum storage space. Beams are adjustable on 1" centres.

- Welded frames ready for quick assembly
- Side mounted beams or front mounted beams
- Particle board shelves or steel shelves
- Shelves supported on beams for extra strength

**1** **VLM** LOGIMAT VERTICAL LIFT MODULE

LogiMat vertical lift modules are designed to increase stock efficiency and performance by 20%, providing pick rates up to 100 lines per hour. This type of lift module is perfect for both commercial and industrial applications as it can save up to 90% more floor space than other systems, while still keeping inventory clean and secure.

LogiMat vertical lift modules consist of a very large container with two columns of stacked trays, an elevator, and an extractor. When in use, the elevator spans the entire container of trays, selecting the desired individual tray and transferring it to the pick window, eliminating any bending or reaching by the operator. All of the system's vertical travel is done through the use of a rack and pinion driven design for smooth, fast, and precise positioning during insertion and extraction of the trays.

LogiMat vertical lift modules have direct drive motors that are integrated into the vertical lift, which eliminates the need for chains and counterweights. This, in turn, helps reduce operating noise levels and maintenance costs, as there is no need for periodic slack/level adjustments. This type of lift module comes fully equipped with a security door and is easily adjusted so that the counter is at the perfect height and the tray tilts at the right forward angle when delivering parts to the picker.

HELPFUL INFO

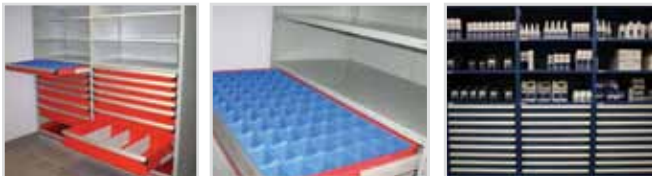

**ABOUT MODULAR DRAWER SYSTEMS**

- The sturdiest and the most durable on the market
- Ergonomic
- Efficient
- Accessible
- 17 Drawer Sizes x 10 Drawer Heights = 170 Possible Dimensions

All modular drawer systems come fully equipped with an ergonomic, full-width handle and accessories (integrated lock-in mechanism, lock-out mechanism, lock, etc.), which have been designed down to the smallest detail in order to make work

easier. Additional accessories for increased organization, such as partitions, dividers, plastic bins, groove trays, foam for tools, and hanging file bars, are also available for modular drawer systems. This type of modular drawer system boasts drawers that open 100% of the way for complete content access and are available in 170 possible dimensions.

**ABOUT MODULAR DRAWERS IN SHELVING**

- Can be installed in over 35 brands of shelving
- Easy and quick hook-on assembly for most brands of shelving
- Several dimensions available: 30", 36", 42" and 48" wide by 18" and 24" deep. Same brackets for different dimensions
- 10 drawer heights and 7 side heights available
- Easy and fast installation
- 400 lb capacity per drawer, most durable drawer in the industry

Modular drawers in shelving are perfect for both industrial and commercial applications, as they can easily be installed in over 35 different brands of shelving. This type of modular drawer can also be installed quickly and easily through the use of hook-on assembly.

All modular drawers in shelving products are available in a wide range of dimensions (30", 36", 42" and 48" wide by 18" and 24" deep), using the same brackets for each dimension. With 10 drawer heights and 7 side heights available, it is easy to find the perfect sized drawer for your specifications. Modular drawers in shelving boast a 400 lb per drawer weight capacity, making them the most durable drawers in the industry.

SUPPLIER:

Rousseau modular drawer systems are perfect for both industrial and commercial applications, as they are specifically designed and tested to maintain full load capacities through a high level of cycles without showing any signs of wear and tear. This type of modular drawer system offers strength and durability you can rely on.

**1 ROLLING LADDERS**

Rolling ladder products are designed to ensure operator safety and to increase productivity by allowing you to take the ladder to where the work is. This product comes in a wide range of sizes and boasts an all steel, bolt together construction that allows for any part to be replaced at any given time.

All rolling ladder products come with a powder-coat finish and a perforated tread design to prevent slipping. No matter what size of rolling ladder you need for your industry, all rolling ladders offer safety features, such as the automatic braking system on 2- to 6-step models or the positive locking system with manual release on 5- to 20-step models. All safety features are specifically designed to ensure the safety of all employees, meeting and exceeding OSHA and ANSI requirements.

- Top platform is 14" D to provide ample working area
- Automatic brake on 2 - 6 step models
- Positive locking system with manual release standard on 7 to 20 step models - optional on 5 & 6 step models
- All Steel - Bolt Together Construction - allows for any part to be replaced
- Powdercoat Finish
- Perforated tread design prevents slipping
- ANSI and OSHA Compliant
- Detailed use and maintenance instructions are sent with each ladder

**2 ROLLING WORK PLATFORMS**

SUPPLIER:

Rolling work platforms combine code-compliant access with the flexibility to provide for changing workflow. These mobile platforms also offer the efficiency of using one platform for multiple locations, when simultaneous work is not required.

Rolling work platforms offer the most economical way to expand your operating space without moving existing structures or acquiring more floor space. All models come with a perforated tread design to prevent slipping, and all steel, bolt together construction that allows for any part to be replaced separately.

These work platforms also offer safety features, designed to ensure that the platform remains fixed in place when in use. Rolling work platforms are available in two different styles: with a positive locking system and without a positive locking system. Models with a positive locking system allow you to unlock the platform wheels and transport it without any lifting required. Models without a positive locking system feature more of a wheelbarrow style in which the platform must be lifted off its front legs in order to transport it. All rolling work platforms meet and exceed the compliancy standards of both ANSI and OSHA.

- 42" Long top platform
- Models without lock roll "wheelbarrow" style
- Models with lock roll without lifting required
- Positive locking system with manual release on locking models
- All Steel - Bolt Together Construction - allows for any part to be replaced
- Powdercoat Finish
- Perforated tread design prevents slipping
- ANSI and OSHA Compliant
- Detailed use and maintenance instructions are sent with each ladder

**4 TILT AND ROLL LADDERS**

Model 890/L02-T: 2-Step Ladder with Handle (Tilt)

Tilt and roll ladders feature an easy to use two-step ladder design, making it ideal for reaching products and goods on lower warehouse shelves. This type of ladder comes equipped with a powder-coat finish.

- 2-rigid casters replace swivel stem casters
- Pull handle to tilt ladder onto casters
- 300 lbs capacity

SUPPLIER:

**3 PUSH HANDLE LADDER**

Model 890 / L02-HNDL: 2-Step Ladder with Handle (Push)

Push handle ladders are designed to provide easier access to products and goods stored on lower shelves. This type of ladder comes complete with a powder-coat finish to help prevent rusting, as well as the wear and tear of everyday use.

- Standard 2-Step Rolling Ladder
- Includes push handle for easier movement
- 300 lbs capacity

SUPPLIER:

**5 LADDER SHELF TRAY**

**Model 891/LS10: Shelf Tray**

- Recommended for use with rolling ladders of minimum 21" long platforms
- Can be attached to the top back handrails on standard 14"D ladder
- Can be attached to the top back or side handrails on standard 21"D or deeper ladders
- Folds down when not in use
- 19-3/8" x 9-3/8" x 1"H

SUPPLIER:

**6 MECHANICS LADDERS**

**Model 890/L03HR-21-T: 3-Step "Mechanics" Tilt Ladder**  
**Model 890/L04HR-21-T: 4-Step "Mechanics" Tilt Ladder**

Mechanics ladders are constructed from an all steel, bolt together design, and a perforated tread design to prevent slips and falls.

- 21" Long Platform
- All Steel – Bolt together design
- 5" non-marking casters on front
- Wheel guards on front of handrail
- All components are replaceable
- Perforated tread design prevents slipping
- 300 Lb. capacity

- ANSI and OSHA compliant
- Detailed use and maintenance instructions sent with each ladder
- Powder-coat finish

**SERVICE CARTS**

Service carts are designed to help you move equipment or products of all shapes and sizes from one location to another, while also helping increase the efficiency of your business. These service carts feature swivel casters and weight capacities up to 1200 lbs, making it easy for you and your employees to move any item to anywhere in your facility.

All service carts are constructed from heavy gauge steel and feature a durable powder-coat finish that will help protect the cart from some of the wear and tear of everyday use.

- Reversible shelves
- Two 5" non-marking swivel casters
- Two 5" non-marking rigid casters
- Weight capacity: 1200 lbs
- Powder-coat finish

Tubular welded steel carts are made from solid all welded steel construction for long lasting strength, durability, and dependability.

All tubular welded steel carts have a frame made with all welded 1" diameter tubing with slatted decks to minimize dust accumulation. These carts also feature 2 swivel and 2 rigid 5" non-marking casters that are specifically designed to roll smoothly in order to create easier transport of products. Tubular welded steel carts are available in both single-shelf carts and two-shelf carts, making them ideal for different loading heights.

Tubular welded steel carts are designed to withstand even the toughest work environments. These carts offer a weight capacity of 1200 lbs and come with a powder-coat finish to help prevent wear and tear caused by everyday use.

- Capacity 1200 lbs
- Powder-coat finish

## 36 APPLIANCE TRUCK PROFESSIONAL MODEL

Stock Number  
890/1504

Appliance truck professional model products are constructed from a welded tubular frame with a powder-coat finish that is specifically designed to provide strength and economy that you can rely on. This type of appliance truck is ideal for both commercial and industrial applications. All appliance truck professional models also come equipped with vinyl non-marking bumpers on contact points to prevent damage to appliances or walls during transportation.

SUPPLIER:

- Semi-pneumatic wheels 5" x 2"
- Height 60"
- Width 24"
- Capacity 800 lbs
- Weight 45 lbs

## 37 APPLIANCE TRUCK GENERAL PURPOSE MODEL

Stock Number  
890/1284

Appliance truck general purpose model products are made from a welded tubular construction that offers strength and durability in even the toughest warehouse applications. This type of appliance truck is perfect for both industrial and commercial uses. All appliance truck general purpose models come fully equipped with a powder-coat finish to help prevent rusting, while standing up to the damage caused by everyday use.

SUPPLIER:

- Semi-Pneumatic Wheels 8" x 2"
- Height 60"
- Width 24"
- Capacity 800lbs
- Weight 50lbs
- Powder-coat Finish

## 38 APPLIANCE TRUCK RENTAL INDUSTRY MODEL

Stock Number  
890/1289

Appliance truck rental industry model products are made from a welded tubular frame that can stand up to the wear and tear of everyday commercial and industrial applications. This type of appliance truck also comes fully equipped with a powder-coat finish to help prevent rusting. All appliance truck rental industry model products offer a simple and highly workable design.

SUPPLIER:

- Semi-Pneumatic Wheels 8" x 2"
- Height 60"
- Width 24"
- Capacity 800lbs
- Weight 52lbs
- Powder-coat Finish

## 39 ECONOMY DRUM TRUCK

Economy drum trucks are made from a sturdy all welded steel construction, featuring a vertical design that mounts to the drum, making it easy to slightly tilt the drum during transportation. All economy drum trucks also come fully equipped with a powder-coat finish that is specifically designed to help prevent wear and tear from everyday use, as well as rusting from occurring.

- Straight up design holds full loads on an incline
- Heavy-duty mold on rubber wheels move easily

SUPPLIER:

Product	Stock Number
Economy Drum Truck	890/3001
10" Pneumatic Wheels	890/3001P

## 40 DELUXE DRUM TRUCK

Stock Number  
890/3000

Deluxe drum trucks are constructed from a sturdy all welded steel construction that offers durability you can count on. All deluxe drum trucks also come fully equipped with a powder-coat finish, which is designed to stand up to the wear and tear of everyday use in even some of the toughest warehouse environments.

- Excellent load balance for easy handling
- Spring loaded, floating axle helps cushion the load
- Self-standing feature keeps truck vertical when not in use
- Heavy duty mold on rubber wheels move easily

SUPPLIER:

## 41 DISPENSING DRUM TRUCK

Stock Number  
890/3004

Dispensing drum trucks are specifically designed to handle dispensing liquids with the same ease as transporting full drums. With its all welded tubular construction and powder-coat finish, dispensing drum trucks are perfect for withstanding work in even the harshest warehouse environments.

- Dispenses liquids with the same ease as moving full drums
- Unique rollers on frame so drums can be rotated without removing them from the truck
- Special chine hooks fit neatly beneath spigot, won't interfere with dispensing

SUPPLIER:

## 42 PLASTIC DRUM TRUCK

Stock Number  
890/3004

Plastic drum trucks are constructed from an all welded steel tubular construction that offers durability and dependability you can count on. All plastic drum trucks also come fully equipped with a powder-coat finish to help prevent rusting, while also standing up to the wear and tear of everyday use in even the toughest warehouse applications.

- Adjustable belt with ratchet tightener
- Handles most 25-45 gallon capacity drums

SUPPLIER:

# DOLLIES AND FURNITURE DOLLIES

## 43 DRUM CRADLES

Drum cradles are constructed from heavy gauge tube construction that provides a level of strength and durability that can withstand even the harshest commercial or industrial applications. All drum cradles also come fully equipped with a powder-coat finish that is specifically designed to help prevent rusting, while also standing up to the wear and tear of everyday use.

**11 HEAVY DUTY PLASTIC STACKABLE CONTAINERS**

- Heavy-duty polypropylene containers are water proof, oil/chemical resistant
- Guaranteed not to break
- Reinforced rib design prevents spreading when stacked or loaded
- Molded lip at rear for use with louvered panels
- Extra wide stacking ledge prevents slippage
- Molded slots for I.D. labels
- Optional dividers increase versatility
- Uniform tare weight ideal for weigh counting
- Available in Red/Blue/Yellow/Green

# SELF DUMPING STEEL HOPPERS

## 19 SELF DUMPING STEEL HOPPERS

- Perfectly balanced to roll forward when released and dump completely, then automatically return to upright, locked position
- Reinforced steel locking latch with spring loaded safety catch
- Formed smooth edge around top and pouring lip for extra strength and safety
- All-welded steel plate construction designed for forklift handling of heavy/bulky scrap
- Comes with Safety Pull Chain and Anti-Tip Retainer Chain
- Red rust-resistant finish
- Hoppers also available in 3/16" and 1/4" Steel
- Casters for Hoppers are available in 6" or 8" and come with 2 rigid and 2 swivel
- Capacity: 4000 lbs
- Conforms to ANSI/TSDF B56.1 Safety Standard

## 21 METAL STACKING BASKETS

- Increase productivity
- maximize floor space
- Cupped legs provide easy stacking and prevent floor damage.
- 34 1/2" W x 40 1/2" D x 32 5/8" H
- Inside depth is 24 3/4"
- Underclearance is 4 3/4"
- Half gates fold down for easy access while stacked.
- Capacity 3000 lbs

SUPPLIER:

## 22 BULK STACKING CRADLES

Stock Number 890 / SR4248: Stacking Rack

- Welded 2" sq. tubing steel construction
- Designed for storage of loose and palletized goods
- Holds up to 4000 lbs. per rack
- Can be stacked 4 high
- OA dimensions – 44.5"W x 50.5"L x 13"H

SUPPLIER:

## SMALL PARTS BOXES

- Compartment boxes, racks and bases
- Manufactured of prime cold rolled steel
- Racks and boxes are finished in rust and acid resistant baked enamel finish
- Designed to hold scoop compartment boxes
- Racks are reinforced for strength and support loaded boxes in the open position without tilting
- Positive stops prevent accidental spillage
- Small box dimensions – 13 3/8" W x 9 1/4" D x 2" H
- Large box dimensions – 18" W x 12" D x 3" H
- Compartment boxes, racks and bases sold separately

26 WRITE ON MAGNETIC TAGS

- 3 standard widths available
- Cut 24" lengths to custom size
- Available in bulk rolls
- Standard product thickness is 0.020"

All write on magnetic tags feature a newly formulated write on/wet erase vinyl top coating that makes marking with a standard wet erase marker extremely simple. The special wet erase feature on these tags is designed to help keep tags clean and clear for extended periods of time and can easily be cleaned with a damp cloth.

3/4" plate top – corners radiused 4" – uncoated
1" galvanized bar grate shelf – 14" from floor
Adjustable height – 32" to 36" on 2" increments
Powder coated standard red

**▲ This made to order item can be between \$5,000 - \$6,000.**

SUPPLIER:

**11 WALL MOUNTED SHOP DESK**

Stock Number – FI518

All wall mounted shop desks are specifically designed to provide a convenient writing area without utilizing any valuable floor space. This type of desk features a large 34 1/2" wide x 30" deep desk top, a 9" deep riser shelf, and an extra wide lockable drawer that runs on smooth full extension ball bearing drawer sliders. Wall mounted shop desks require minor assembly and can easily be mounted in most locations.

**12 FLOOR MODEL FOREMAN'S DESK**

Stock Number – FI519

All floor model foreman's desks come fully equipped with a 9" deep riser and a sloped writing top that is 43" high at the front. Floor model foreman's desks are 34 1/2" wide x 2" deep x 53" high, making it the ideal desk for most workspaces. This type of desk requires minor assembly.

**13 CABINET STYLE SHOP DESK**

Stock Number – FI520

Cabinet style shop desks are solid units that offer the same convenience as the floor model foreman's desk with the added bonus of a locking cabinet for extra storage space. This type of desk is 39 1/2" wide x 30" deep x 53" high and comes fully assembled. All cabinet style shop desks come fully equipped with a sloped writing top that is 43" high at the front and a large locking, double door cabinet.

## 1 SECURITY WIRE FENCING

- Ideal for the storage of expensive small parts in warehouse or factory
- Adapts to your needs
- Quick to set up
- Convenient to move or relocate
- Easy to install
- Please call for sales assistance.
- Shipped K.D.

## 5 PIVOT SAFETY GATES

SKU: G-PSG

Pivot Safety Gates are designed to protect open areas on mezzanines, storage platforms and rack systems during loading and unloading of material. Easy installation into existing handrail systems. When one side is raised, the other side is closed allowing for quick, convenient and safe access by forklifts and personnel.

- 5" Wide x 80" High Pivot Safety Gate
- Stock Code – 760/G-PSG8060
- 8" Wide x 80" High Pivot Safety Gate
- Stock Code – 760/G-PSG8096

SUPPLIER:

## 6 HANDRAIL SYSTEMS

At Unitran we manufacture a complete line of handrail systems and guardrail systems available through quick ship program. Our handrail system comes standard at 42"H with a top and centre rail and a 5 1/2" kick-plate.

SUPPLIER:

## 7 HANDRAIL SWING GATE

SKU: Handrail G12-5

Mezzanine Handrail Swing Gates are a great solution when you need the added security of a swing in gate while having adequate access to your mezzanine or storage platform. Designed for access area of 60". Compatible with Unitran guardrail systems, inquire for compatible options for other handrail systems.

SUPPLIER:

## 8 HANDRAIL DOUBLE SWING GATE

SKU: Handrail G13-5

Mezzanine handrail double swing gate is a great solution when you need added security of a swing in gate while having adequate access to your mezzanine or storage platform. Designed for access area of 96". Compatible with Unitran guardrail systems, inquire for compatible options for other handrail systems.

SUPPLIER:

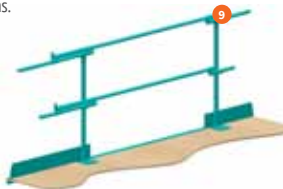

## 9 HANDRAIL PIPE GATE

SKU: Handrail G9

Mezzanine handrail double swing gate is a great solution when you need added security of a swing in gate while having adequate access to your mezzanine or storage platform. Designed for access area of 96". Compatible with Unitran guardrail systems, inquire for compatible options for other handrail systems.

SUPPLIER:

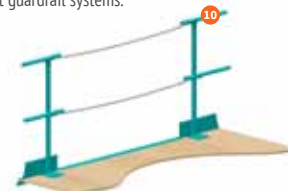

## 10 PIVOT CHAIN GATES

SKU: Handrail G6

Mezzanine Handrail Chain Gates are a great economical solution to provide an access point onto your mezzanine or storage platform. Designed for access area of 96" or less. Compatible with most guardrail systems.

# PALLET TRUCKS AND LIFTING EQUIPMENT

## 1 DRUM LIFTER

Stock Number: 890/BC-1

- Drum lifter – Grips, Holds, and Moves drums in the upright position
- Attach to a forklift truck, crane or hoist
- Open or closed drums
- Tong-grip grips more tightly as force is applied
- Capacity - 1000 lbs.

SUPPLIER:

## 2 FORKLIFT WORKSTAGE

Stock Number: 890/510

- Attaches to your forklift
- All welded construction
- 42" high safety rail
- Latching front gate
- 5" high kick-plate
- 42" deep x 36" wide platform
- Non-slip steel deck
- 2 3/4" x 7 3/4" full length fork pockets
- Overall height = 75"
- Inside height = 72"
- Safety chains to secure to forklift
- Safety mesh back to prevent items being caught on forklift
- Conforms to ANSI/ASME B56.1 Safety Standards
- Powder coat finish
- Capacity - 500 lbs.

SUPPLIER:

## 3 LIFTRITE TITAN PALLET TRUCKS

- New one-piece pump for improved performance and reliability
- Includes ergonomic handles and articulating steering wheels
- 3" fork lowered height, 7 3/4" fork raised height
- 2 Year Limited Warranties on LR models
- 7" fork width

## MOBILE LIFT TABLES

- ### 4 Standard Dandy Lift
- The Dandy Lift offers the ideal solution to reliable, economic lifting over years of service
  - Pivot points have hardened pins in lifetime lubrication bearings
  - Simple grouped controls make tables easy to operate
  - Hard chrome-plated pistons and rods resist rust and corrosion for dependability and long life
  - Honed heavy-walled cylinders improve both seal performance and durability

- ### 5 Low Profile Dandy Lift
- Ideal for use in factories, warehouses and repair shops
  - Fully lowered height of only 3 1/8"
  - Platform fits easily under most skids and wire baskets
  - Comes with 2 rigid and 2 swivel rubber casters
  - Floor lock break is standard
  - Ability to lift loads of 1100 lbs.
  - Lift height: 29 1/2"

### HELPFUL INFO

How To Select Your Dock Board or Dock Plate, 4 Simple Steps!

#### Step 1.

Capacity. Take 80% of the combined weight of lift truck and maximum load

#### Step 2.

Width. Add 12" to width of widest vehicle. Most popular is 60"

#### Step 3.

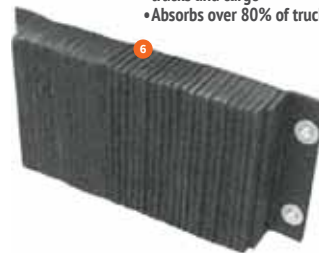

Height Differential. Determine average vertical distance between truck bed and dock. (Trucks can be higher or lower than dock)

#### Step 4.

Relate these measurements to the table below and choose board closest to your requirements.

## 6 DOCK BUMPERS

- Helps prevent damage to dock, building, trucks and cargo
- Absorbs over 80% of truck impact

Stock Number	Mount	Size H x W x D
500/H1410	Horizontal	10" x 14" x 4"
500/H3610	Horizontal	10" x 36" x 4"
500/V1120	Vertical	20" x 11" x 4"

**7 DOME MIRRORS**

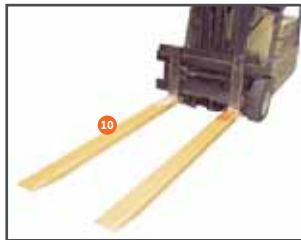

- Increase surveillance and prevent accidents due to blind corners
- Constructed of acrylic for added durability
- All mirrors have a black protective edge and hanging clips
- Full dome mirrors come with hanging chains and hooks
- All mirrors are open-topped

**Ideal Locations:**

- 360° 4 Way Intersections
- 180° "T" Intersections
- 90° Corner Intersections

	7 Full Dome 360°	8 Half Dome 180°	9 Quarter Dome 90°

18"	SDP506	SDP501
26"	SDP507	SDP502
30"	SDP508	SDP503
36"	SDP509	SDP504

- Removed blind spots reducing the chance of accidents caused by blind corners
- Includes adjustable arm
- Adjustable ball and swivel mount with 100° viewing angle

•NOTE: Dome mirrors available under "Dome Mirrors"

**12 STRIP CURTAIN DOORS**

Strip curtain doors come complete with PVC strips and universal hardware for easily mounting the strip curtain. All strip curtain doors are available in standard and low temperature options (low temperature is only recommended for interior uses for temperatures -40C to 37C) and come in a selection of different dimensions (4' x 7" to 12' x 12"). Strip curtain doors can also be easily trimmed down in order to be custom fitted to almost any door opening.

**Ordering Information**

Every strip curtain door comes complete with PVC strips and universal hardware for mounting strip curtain. Simple-to-flow installation instructions are included in every package.

1. Determine inside width and height of door opening
2. Select type of PVC material required, STANDARD or LOW TEMP - Low Temp, recommended for interior use only for temperatures from -40C to 37C
3. Select from the standard sizes listed in the chart below - If required size is not available, order the next largest size - Installation instructions describe how simple trimming can custom fit almost any door opening
4. Special size doors and hanging applications are available upon request
5. For overhead doors, please call one of our sales representatives for assistance

**Standard Door Size:**

Model No. Standard	Model No. Low Temp.	Strip Size	Door Opening W x H (feet)
KF022	KF004	8" (8" x 0.08") **Doors with 8" strips have 2" standard overlap**	4 x 7
KF023	KF005		5 x 8
KF024	KF00		6 x 8
KF026	KF00	12" (12" x 0.012") **Doors with 12" strips have 4" standard overlap**	8 x 8
KF025	KF00		8 x 10
KF020	KF00		10 x 10
KF021	KF00		12 x 12

**Replacement Strips - 5 Per**

Model No. Standard	Model No. Low Temp.	Strip Size
KF032	KF013	(8" x 0.08) x 8'
KF029	KF011	(12" x 0.012) x 12'

## 1 DIAMOND-PLATE

- Our Diamond Plate products define the market for dry area anti-fatigue matting
- These mats have a Nitricell® sponge base, a unique & resilient nitrile rubber composite that provides unparalleled comfort, resilience and long-term performance
- Designed for optimised worker productivity in heavy-use production and lab areas, the PVC diamond-plate surface resists abrasion and most chemical spills
- Edges safety bevelled

### UltraSoft Diamond-Plate No. 414

Ultimate Performance has a double thick Nitricell® sponge base, 15/16" for a little extra comfort!

No. 414		
StockNumber		Dimensions W' x L'
Black/Yellow	Black/Black	
SAJ810	SAJ809	2 x 3
NG924	NG917	3 x 5

### Diamond-Plate SpongeCote No. 415

Best Performance is a standard 9/16" thick and has been a best seller for over 20 years!

No. 415		
StockNumber		Dimensions W' x L'
Black/Yellow	Black/Black	
NB416	NB420	2 x 3
NB430	NB431	3 x 5

\*\*Custom sizes available up to 4' x 75"

## 2 ULTRA-TRED ARMORCOTE

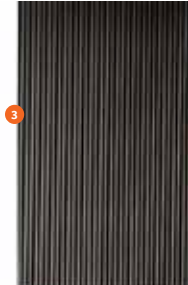

- Urethane coating gives this anti-fatigue mat extra durability
- PVC sponge with a urethane wear-layer for longer performance
- The double-thick urethane coating offers more abrasion and chemical resistance than comparable sponge products
- A tremendously versatile, yet affordable mat
- Ultra Tred is ideal for use in mostly dry applications such as labs and other medium traffic areas
- 3/8" thick with eye catching yellow safety borders
- Colour: Black with Yellow Borders

StockNumber	Dimensions W' x L'
NB533	2 x 3
NB537	3 x 5
NB534	3 x 12
SAJ811	2 x 60
NB538	3 x 60
NB540	4 x 60

\*\*Custom sizes available up to 4' x 60"

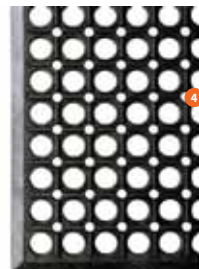

## 3 STANDARD CORRUGATED VINYL

- Protects floors from foot traffic or special events
- Adds traction where needed
- Reduces cleaning costs
- Flexible, yet durable vinyl compound easily rolls up after use and is resistant to many chemicals and cleaning fluids
- 1/8" thick
- Colour: Black

StockNumber	Dimensions W' x L'
SDL875	2 x 75
SDL876	3 x 75
SDL877	4 x 75
SDL878	2 x lin. ft.
SDL879	3 x lin. ft.
SDL880	4 x lin. ft.

## 4 DRAINAGE MATS

- Perfect for wet commercial or industrial areas
- General purpose, natural rubber compound for use around water and non-caustic agents
- Lightweight design eases the strain of cleaning, yet keeps employees comfortable
- Functional drainage design
- Moulded bevelled edges for easy access
- Colour: Black

Stock Number	Dimensions W' x L'	Thickness	Design
SDM621	3 x 5	1/2"	Standard
SDM618	3 x 10	1/2"	Standard
SDM619	3 x 20	1/2"	Standard
SFQ525	3 x 5	7/8"	Standard
NB632	3 x 5	1/2"	Light-Weight
NB630	3 x 10	1/2"	Light-Weight
NB631	3 x 20	1/2"	Light-Weight

## 5 TUF SPONGE

- For use in all dry work areas
- Blow-n-PVC sponge design to reduce floor hardness up to 50%
- Available in workstation mats and rolls, they can easily be "custom" cut to fit your work areas
- Available in widths up to 60" with all edges safely rounded on full rolls and stock sizes

Stock Number	Dimensions W' x L'	Thickness	Colour
NB550	2 x 3	3/8"	Black
NB551	2 x 3	3/8"	Grey
NB565	3 x 5	3/8"	Black
NB566	3 x 5	3/8"	Grey
NB568	3 x 60	3/8"	Light-Weight
Black	3 x 10	1/2"	Light-Weight
NB569	3 x 60	3/8"	Grey
SAL174	2 x 3	5/8"	Black
SAL180	3 x 5	5/8"	Black
